

SPEEDSTER

The purest expression of a British sports car.

Unlike anything that has come before.

The spirit of the past. Engineered for the future.

CELERITAS LEVITATIS

THE SPEED OF LIGHTNESS

REDEFINING BRITISH AUTOMOTIVE FOR THE MODERN ERA

A true British sports car should be featherweight, impeccably engineered, and meticulously hand-finished.

While embracing the future, the Speedster is born from a reverence for over a century of British motoring heritage – the first electric sports car to truly earn its name by faithfully embodying the very essence of the breed.

Speedster has pursued a singular philosophy: simplify, then relentlessly add lightness, until all that remains is sheer automotive intoxication.

Hand-built in England – because no other place on Earth could have made it quite like this.

A NEW SPECIES IS BORN

"Adding lightness" is the open secret to true speed — not just in a straight line, but in every nuance of motion. Weight invites complexity, blunts agility and dulls the senses.

Speed, agility and safety are inseparable — each shaped by the artistry of lightweight engineering.

With its pioneering lightweight technologies, Longbow introduces an entirely new species: the Featherweight Electric Vehicle {FEV}.

A predator with a silent heartbeat, it hunts in territories where electrification has long feared to tread.

THE SPEED OF LIGHTNESS

Longbow is driven by the spirit of *celeritas levitatis* — the art of moving at the speed of lightness.

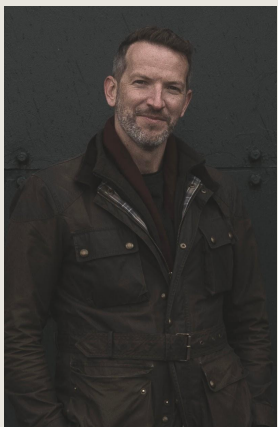

It speaks not just of modern capability but of nimble agility and near-weightless poise, evoking the effortless thrill that defined Britain's most legendary sports cars.

Boudica herself stands as our muse — the embodiment of defiant grace and indomitable spirit. Bow raised, emerging from the embers of battle, she bestows elegance and ferocity upon every journey.

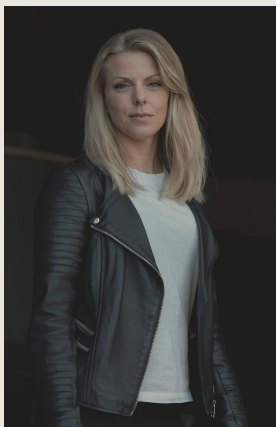

A steadying brace. A deliberate breath. A pulse quickened. A heartbeat missed. Potential, laid bare in its purest form. Mastery.

Be moved — at the speed of lightness.

A VISION BORN OF SPIRIT, FORGED BY REASON

A dream, born of a steadfast belief that there must be an antidote to autonomy — a vision to share a driving experience like no other with those who still dare to dream.

A dream, yes — but one anchored in the immutable truths of physics and first principles. Built upon an unshakable foundation of engineering excellence and reason. The creation of a machine that performs with unrelenting purpose.

A machine driven by pure spirit and timeless dedication.

AN ARROW FIRED ACROSS ENGLAND'S GREEN & ROLLING HILLS

There is nowhere quite like England — a land that inspires, challenges and refines.

Designed, honed and hand-crafted upon these shores, Speedster is perfected not for the sterile precision of the track but for the unforgettable journeys that make driving an art.

Lap times make headlines but Longbow writes something far more enduring — a story devoted to the pure pleasure of driving, not just the tyranny of the stopwatch.

The thrill of an open road, the wind rearranging your hair, the promise of the next corner calling — that is what we are built for.

We do not exist to prescribe or restrict. We exist to create something infinitely better — the purest expression of driving freedom.

The view ahead is always
epic

A TIMELESS SILHOUETTE

A single, broad and sculpted shoulder line extends gracefully from front to back, whispering of a continuous silhouette.

From every angle, as light glances across its surface, a reflected blend of nostalgia and futuristic allure is released.

An exotic presence, bringing artistry back to the sports car. Timeless beauty, unfazed through the ages, destined for immortality.

S P E E D S T E R

Few eras have gifted the world such style, sophistication and elegance as the 1960s. Speedster's evocative form draws from that timeless well; distilling a design philosophy that marries bold, unfiltered beauty with the purity of uninterrupted lines — each one inspired by the golden age of sports car craftsmanship.

It wears its simplicity with quiet confidence, blending intricate detail with obsessive construction. Influenced, yet unmistakably original, its contemporary aesthetic stands in deliberate contrast — sharp modernity set against the eternal allure of classic form.

NATURAL ATHLETICISM IN ITS DNA

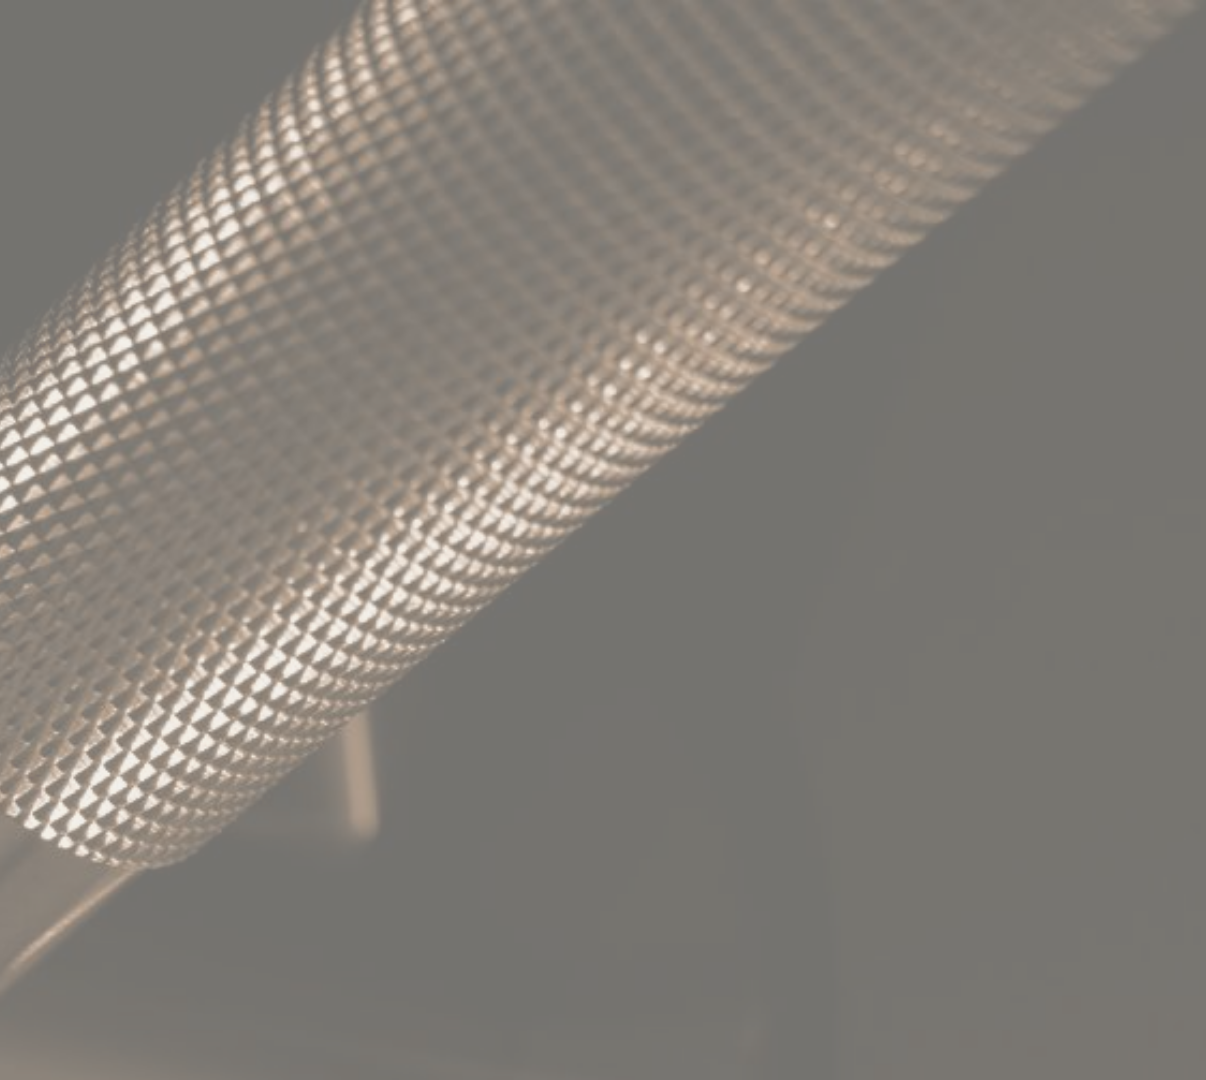

Power to weight. A ratio that means everything to a true sports car.

A near perfect weight distribution endows athletic abilities beyond its power, effortlessly mastering twisted asphalt, carving through with surgical precision,

Speedster is a masterpiece of perfect proportion, its weight blended into sculpted musculature with exquisite harmony, crafted by human touch.

Engineering and design occupy a balance within the compact yet accommodating envelope that affords room for eyes to glance and legs to stretch.

DRIVING LIKE IT USED TO FEEL

Machined surfaces. Knurled dials. Tactile feedback.

An escape from the mediocre.

Mesmerizing craftsmanship that doesn't distract; it flows from lathe to wheel. At rest, the workmanship merges into the abyss of beauty and curved form of intoxicating surroundings.

Inspired by the past but engineered for the future, Speedster features a unique interface that defies time to become timeless, inviting you to fall in love again and again.

Void of moments of pause in motion and free from intrusive electronics, the flow of motion remains seamless and uninterrupted.

THEATRE IN MOTION

A true sports car doesn't simply move — it performs. Every ignition, every shift, every pulse of the wheel must ignite the senses.

The Speedster delivers open-air drama like nothing else — a freefall from the ramp of a C-130, where the wind roars, the sky blurs, and adrenaline floods every vein.

Tactile, raw, unpredictable — this is driving as theatre, where sound, touch, and motion collide in a headlong rush of sensation.

Every surface, every mechanism, every breath of air exists to amplify the thrill — not to soften it.

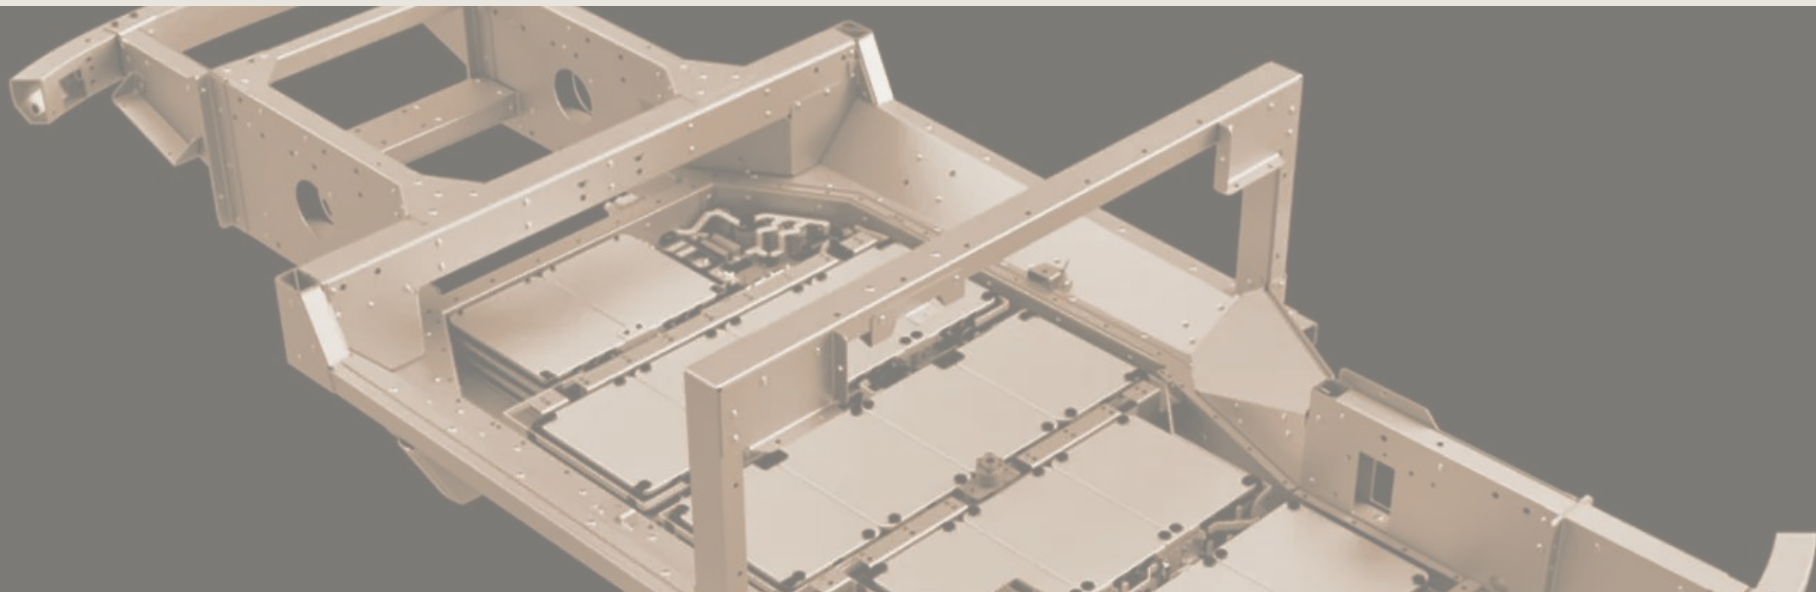

This is motion, unleashed. An experience curated to leave you breathless.

THE FABRIC OF SPACE, TIME & THE SPEED OF LIGHTNESS

The Speedster rests upon a bespoke aluminium chassis, its purposeful proportions giving our designers and engineers the freedom to craft a resolute sports car — shaped for speed, honed with arrow-like precision.

The very fabric of its construction enhances every sensation, heightening feedback and delivering a driving experience that feels alive in your hands.

By seamlessly fusing featherweight architecture with a modern electric heart, the Speedster achieves a rare equilibrium — effortless agility balanced by a natural, unfiltered poise.

SPEEDSTER

A classic open two-seater, revered for its featherweight design and unfiltered performance.

It distils the very essence of driving pleasure — a sleek, beautiful silhouette that defines its era and defies the future.

The antidote to autonomy. A timeless expression of elegance and exhilaration, crafted for those who believe driving is art.

MORE THAN ITS PAST

MORE THAN IT HAS EVER BEEN

IMMORTAL

True beauty is timeless. True scarcity is priceless.

Longbow exists for the ages, standing in defiance of the disposable world. Recycling is our last resort, never our first response.

Inspired by the ancient Japanese art of Kintsugi — where flaws are not hidden but gilded, making each piece stronger and more beautiful — Longbow imbues this philosophy into every nut, bolt, and volt.

But Kintsugi is not just an idea — it is a promise. Through timeless design, interchangeable components and endless upgradeability, Speedster grows more valuable with every passing generation.

More than a car, it becomes a living reflection of its driver — evolving as you do, ageing gracefully, always ready for the next chapter.

With a carefully curated refresh programme, Longbow preserves each vehicle's unique story, ensuring that every car becomes not only everlasting but ever more precious.

The Speedster legacy begins with you, but it is never ends.

MACHINE & DRIVER, KINSHIP BEYOND THE CAR

With Longbow, you are not simply connected to your car — you become part of it. Your bio-data and the Speedster's telematics intertwine, mapping the dance between machine and driver into a living record of every shared moment, evolving the first Auto-sapiens.

This connection flows beyond the cockpit into The Guild — a circle of innovators, disruptors and purists bound by a love of driving for driving's sake. Together, you'll share roads, stories, and tailored experiences designed for those who crave beauty in motion.

Every mile earns your car provenance. Every beat of your heart becomes part of its legend.

This is not ownership — it's kinship.

BOWYER; bespoke by Longbow

Once, the bowyer's hands shaped the soul of every longbow, selecting and carving each piece of yew into a weapon of precision and power.

Today, BOWYER by Longbow revives that spirit — offering a bespoke personalisation service where your car becomes your canvas.

From art to architecture, distant lands to treasured memories, every texture, colour, and material can be woven into your car's story.

No two will ever be the same — your Longbow will be as individual as your imagination allows.

BOWYER — craft your legend.
